

When do you need to see the ramp swing?

- After the referee presents the Jack and before the athlete propels the Jack when they are starting the end:
 - first end = red swings ramp
 - second end = blue swings ramp, etc.
- Before a penalty shot.
- In a tie breaker end, BOTH/ALL athletes must swing ramp prior to their first turn to throw.
- When returning from the court after viewing balls in play.
- Before playing a shot after a ball has been returned by the referee to be replayed.

PENALTY IS A RETRACTION OF THROWN BALL

When do you NOT need to see the ramp swing?

- Blue does not need to swing ramp prior to throwing out first ball (providing that red has already thrown both jack and first red ball properly).
- In-between shots.
- Any athlete may swing their ramp when it is their turn, but it is not necessary to do so.
- If they don't have any more balls (when teammate returns from court).
